P501

lenses, if present and easy to do. Continue rinsing. Dispose of contents/container in accordance with local/regional/national/ international regulations.

2.3 Other hazards

· Results of PBT and vPvB assessment

· **PBT:** Not applicable.

· **vPvB:** Not applicable.

SECTION 3: Composition/information on ingredients

· 3.2 Mixtures

· Description: Mixture consisting of the following components with harmless additives.

· Dangerous components:

CAS: 7664-38-2 EINECS: 231-633-2

 phosphoric acid
 Met. Corr. 1, H290; Skin Corr. 1B, H314; Eye Dam. 1, H318
 Acute Tox. 4, H302
 Specific concentration limits: Skin Corr. 1B; H314: C ≥ 25 % Skin Irrit. 2; H315: 10 % ≤ C < 25 % Eye Irrit. 2; H319: 10 % ≤ C < 25 %

SECTION 4: First aid measures

· 4.1 Description of first aid measures

· General information Instantly remove any clothing soiled by the product.

· After inhalation

Seek medical treatment in case of complaints.

In case of unconsciousness bring patient into stable side position for transport. Supply fresh air.

After skin contact

If skin irritation continues, consult a doctor.

Instantly wash with water and soap and rinse thoroughly.

• After eye contact Rinse opened eye for several minutes under running water. Then consult doctor.

- After swallowing Drink copious amounts of water and provide fresh air. Instantly call for doctor.
- 4.2 Most important symptoms and effects, both acute and delayed No further relevant information available.

• **4.3 Indication of any immediate medical attention and special treatment needed** No further relevant information available.

SECTION 5: Firefighting measures

· 5.1 Extinguishing media

Suitable extinguishing agents

Use fire fighting measures that suit the environment.

CO2, extinguishing powder or water jet. Fight larger fires with water jet or alcohol-resistant foam. • 5.2 Special hazards arising from the substance or mixture

Formation of poisonous gases during heating or in fires.

- 5.3 Advice for firefighters

- · Protective equipment: Put on breathing apparatus.
- Additional information

Cool endangered containers with water spray jet. Collect contaminated fire fighting water separately. It must not enter drains.

(Contd. on page 3)

(Contd. of page 2)

SECTION 6: Accidental release measures

- 6.1 Personal precautions, protective equipment and emergency procedures Wear protective equipment. Keep unprotected persons away.
- 6.2 Environmental precautions: Do not allow product to reach sewage system or water bodies. Dilute with much water.
- 6.3 Methods and material for containment and cleaning up: Absorb with liquid-binding material (sand, diatomite, acid binders, universal binders, sawdust). Use neutralising agent. Dispose of contaminated material as waste according to item 13. Ensure adequate ventilation.
- 6.4 Reference to other sections See Section 7 for information on safe handling See Section 8 for information on personal protection equipment. See Section 13 for information on disposal.

SECTION 7: Handling and storage

- **7.1 Precautions for safe handling** Keep containers tightly sealed. Ensure good ventilation/exhaustion at the workplace. Prevent formation of aerosols.
- · Information about protection against explosions and fires: Keep breathing equipment ready.
- · 7.2 Conditions for safe storage, including any incompatibilities
- · Storage
- Requirements to be met by storerooms and containers: Provide acid-resistant floor. Store in cool location. Store only in the original container.
 Information about storage in one common storage facility: Store away from foodstuffs.
- Do not store together with alkalis (caustic solutions).
- Further information about storage conditions:
- Store in cool, dry conditions in well sealed containers.
- Protect from heat and direct sunlight.
- Storage class 8 B
- · 7.3 Specific end use(s) No further relevant information available.

SECTION 8: Exposure controls/personal protection

· 8.1 Control parameters

· Components with critical values that require monitoring at the workplace:

- 7664-38-2 phosphoric acid
- WEL Short-term value: 2 mg/m³
 - Long-term value: 1 mg/m³
- · Additional information: The lists that were valid during the compilation were used as basis.
- · 8.2 Exposure controls
- · Appropriate engineering controls No further data; see item 7.
- Individual protection measures, such as personal protective equipment
- · General protective and hygienic measures
- Do not eat, drink or smoke while working.

The usual precautionary measures should be adhered to in handling the chemicals. Keep away from foodstuffs, beverages and food.

SECTION 10: Stability and reactivity

· 10.1 Reactivity No further relevant information available.

10.2 Chemical stability

· Conditions to be avoided:

No decomposition if used according to specifications.

To avoid thermal decomposition do not overheat.

• 10.3 Possibility of hazardous reactions Reacts with alkali and metals

- 10.4 Conditions to avoid No further relevant information available.
- · 10.5 Incompatible materials: Keep away from strongly acidic and alkaline materials

10.6 Hazardous decomposition products: None

SECTION 11: Toxicological information

· 11.1 Information on hazard classes as defined in Regulation (EC) No 1272/2008

- · Acute toxicity
- Harmful if swallowed.
- · Skin corrosion/irritation

Causes severe skin burns and eye damage.

(Contd. on page 6)

GB

Printing date 09.02.2023

Version number 6

Revision: 09.02.2023

(Contd. of page 5)

Trade name DURLIN ROSTENTFERNER FE 10

· Serious eye damage/irritation

Causes serious eye damage.

· Germ cell mutagenicity Based on available data, the classification criteria are not met.

· Carcinogenicity Based on available data, the classification criteria are not met.

• **Reproductive toxicity** Based on available data, the classification criteria are not met.

STOT-single exposure Based on available data, the classification criteria are not met.

• **STOT-repeated exposure** Based on available data, the classification criteria are not met.

• Aspiration hazard Based on available data, the classification criteria are not met.

Additional toxicological information:

· CMR effects (carcinogenity, mutagenicity and toxicity for reproduction) -

11.2 Information on other hazards

· Endocrine disrupting properties

None of the ingredients is listed.

SECTION 12: Ecological information

· 12.1 Toxicity

· Aquatic toxicity: No further relevant information available.

- 12.2 Persistence and degradability No further relevant information available.
- 12.3 Bioaccumulative potential No further relevant information available.
- 12.4 Mobility in soil No further relevant information available.
- 12.5 Results of PBT and vPvB assessment
- · **PBT:** Not applicable.
- · vPvB: Not applicable.
- · 12.6 Endocrine disrupting properties

The product does not contain substances with endocrine disrupting properties.

12.7 Other adverse effects

- · Additional ecological information:
- · General notes:

Rinse off of bigger amounts into drains or the aquatic environment may lead to decreased pHvalues. A low pH-value harms aquatic organisms. In the dilution of the use-level the pH-value is considerably increased, so that after the use of the product the aqueous waste, emptied into drains, is only low water-dangerous.

Must not reach sewage water or drainage ditch undiluted or unneutralised.

Water hazard class (Germany) 1 (Self-assessment): slightly hazardous for water.

Do not allow undiluted product or large quantities of it to reach ground water, water bodies or sewage system.

SECTION 13: Disposal considerations

· 13.1 Waste treatment methods

Recommendation

Hand over to disposers of hazardous waste.

Must not be disposed of together with household garbage. Do not allow product to reach sewage system.

- · Uncleaned packagings:
- Recommendation:

Disposal must be made according to official regulations.

Packaging can be reused or recycled after cleaning.

· Recommended cleaning agent: Water, if necessary with cleaning agent.
