

## INSTALLATION AID WEDGES & CLIPS

- > easy application
- > ces lippage during installation
- > saves time
- > reusable wedges

### Product description

Plastic installation aid consisting of wedges and clips for installation material up to a thickness of 3-12 mm. The installation aid simplifies laying, especially for large formats, and reduces the risk of lippage. The lengthy set-up process can thus be greatly reduced, enabling faster work. For delicate ceramics or natural stone, it is recommended to use a protective underlay under the wedge, which protects the wedge from direct contact with the material to be laid.

### Delivery format

Container	Outer packaging	Pallet
80 STK / KE	-	80 KE
10 STK / KE	10	160 KE

### Storage

Can be stored frost-free, cool, and dry on wooden shelves in the unopened original container for unlimited shelf life

### Substrate

#### Suitable substrates

- Concrete
- Cement screed
- Anhydrite screed
- Mastic asphalt
- Gypsum plaster
- Lime cement plaster
- Masonry
- Gypsum plasterboards
- Formwork-smooth concrete
- Aerated concrete
- Wooden materials

The substrate must be dry, frost-free, solid, weight-bearing, dimensionally stable, free of dust, dirt, oil, grease, release agents, and loose parts, and it must comply with the applicable technical national and European directives, standards, and the "generally accepted technical rules".

## Safety instructions

This leaflet is based on extensive experience, is intended to convey the best of our knowledge, is not legally binding and does neither constitute a contractual legal relationship nor a subsidiary obligation resulting from the bill of sale. The quality of our materials is guaranteed within the framework of our general terms and conditions. Our products may be used by professionals and/or experienced and accordingly technically skilled persons only. Users are not released from inquiring in case of uncertainties or from rendering professional workmanship. We recommend using a test surface first or a small area for initial, small-scale testing. Naturally, it is not possible to describe or foresee all possible current and future uses and peculiarities. Information that is assumed to be familiar to experts has been omitted.

Please observe the current, technical, national and European standards, guidelines and data sheets regarding materials, substrates and the subsequent construction. Please contact us if you have any reservations or doubt.

This version is rendered invalid if a new version is released. The most recent data sheets, safety data sheets and the terms and conditions are available online at [www.murexin.com](http://www.murexin.com).
